

## Parents & Carers: How we need you to help us re-open school safely

No school if there are ANY symptoms in your home

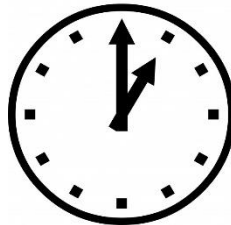

Packed lunches in solid boxes or disposable bags.  
Thoroughly wash lunch boxes every day.

Don't come to the school office if possible.  
Email, call and use online payments where possible.

Avoid the Bus and Tram:  
Walk or Cycle:  
This will avoid contact with strangers and avoid creating crowds trying to park cars near school.

Be on time:  
This will reduce risk by keeping your child from mixing with other groups

Only one adult per family /  
Let older children walk the last part of the journey alone to avoid creating crowds near school.

Parents are not allowed in the school grounds for children aged over 5 unless necessary.  
This stops avoids creating crowds.

Obey the special signs and markings around school.  
Doing this will keep all families safe.

Keep a safe distance from other families whilst waiting at the start and end of the school day.

## **How we are keeping your child safe in school**

Your child's class will be their bubble.

Your child's class will not mix with children any other year group at all during school hours. This means that if there is an infection in one class, all other classes are protected.

Your child's class will have:

- It's own start time
- It's own teacher
- It's own toilets
- It's own handwashing facilities and hand sanitizer
- It's own cleaning products
- It's own break time
- It's own lunch time
- It's own adult for playtimes and midday breaks
- It's own home time

We will be keeping your child's class as clean as possible by:

- Expecting all parents to do their bit using the rules over the page
- Cleaning surfaces regularly throughout the day
- Insisting on handwashing regularly throughout the day
- Undertaking a deeper clean at the end of every day
- Not children from other classes into your child's classroom
- Not having assemblies or larger group gatherings

**This will only work if you keep your child safe when they are not at school.  
Children who go out to play with other children will be a higher risk  
to their class when they come back to school.**
