# Division

Terms children need to know:

- Divide
- Divided by
- Divided into
- Share equally
- Equal groups of

16 ladybirds **divided into** 4 groups
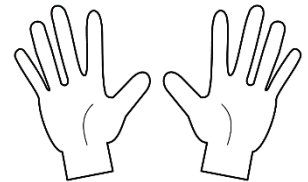

16 **divided by** 4

Share 16 ladybirds **equally** into 4 groups

4 **equal groups of** 4 make 16

16 ÷ 4 = 4

Learning times tables is key! You have fingers so use them! For example, for 21 ÷ 3 count up in 3s on your fingers until you reach 21. The answer is 7.

Can you see there are 7 jumps?

So 21 ÷ 3 = 7

Look at this question: **10 ÷ 3**

Count up in 3s until you get as close to 10 as you can without going over. STOP! How many jumps was that? 3

Hang on, we haven't got to 10. How far away are you? Count from 9 to 10. The answer is 1.

10 ÷ 3 = 3 remainder 1
